FEATURES AND BENEFITS

OUR BRONZE/COPPER LINE IS THE SOFTEST FACE HAMMER WE OFFER

NON-SPARKING BRONZE HEAD

For safe use near combustible materials.

NON-MARRING BRONZE HEAD

Helps absorb impact and helps reduce work damage where surface protection is critical.

DOUBLE FACED BRONZE HEAD

Cast barrel shaped head offers maximum striking surface while enhancing balance.

WOOD HANDLES

Our Tennessee grade-A hickory handles are specially tapered, fire finished, with a tough urethane coating applied, providing better durability and UV protection. They have a textured handle providing a non-slip grip while striking.

FIBERGLASS HANDLES

Our fiberglass handles are high visibility yellow in color and are ergonomically designed to help prevent injury from repeated use. Cushion grips provide a non-slip grip and maximum comfort while striking. Shoulder protector design prevents breaking during overstrikes.

BRASS WEDGES

The ABC brass wedge permanently secures the head to the handle and eliminates the spark danger associated with steel wedges used in other hammers.

LIFETIME WARRANTY

ABC Hammers, Inc. warrants its hammers to be defect free in workmanship and materials for the useful life of the product. This warranty does not apply to any defects or problems caused in whole or part by misuse, abuse, alteration, worn out by use, or damage due to ordinary wear and tear. Replacement is the exclusive remedy and ABC Hammers, Inc. makes no other warranties, express or implied, with respect to the hammers or their suitability for specific applications.

MADE IN THE USA

Our Bronze/Copper hammer line is a 90% copper base alloy
